

Accessories for your Ninety, One Ten and Series III

ACCESSORIES

HELPING YOUR VEHICLE DO EVERYTHING IT DOES, BETTER

No vehicle is more versatile and capable than a Defender. But everyone's needs are different. So a choice of the right specialised accessories will add further still to your enjoyment and the capabilities of your vehicle.

Not just any accessory will suit a vehicle as superbly engineered as a Defender. Only those from Land Rover Parts range are factory approved to original equipment standards, and guaranteed to stand tough treatment, so there's no weak link.

Our engineers are constantly seeking out and evaluating the latest items for inclusion in the range. And only when they have passed our stringent tests will they be offered as a genuine Land Rover fitment.

The latest additions include a purpose designed wraparound nudge bar which includes lamp guards — with a fixing method requiring no drilling of the vehicle. A combination ball and jaw unit completes the comprehensive range of towing equipment. The low profile electric winch is now offered as a package incorporating the winch unit, fitting kit, electrics, rope and hook — all you need for an installation on your Land Rover. These new items make sure that this is still the widest range of dedicated Land Rover accessories in the world.

Take a look at the following pages — and see how you can make your Defender go even further towards meeting your needs.

NUDGE BARS LIGHTING LAMP GUARDS

Nudge Bars

There is a choice of nudge bar types, both of which are designed to protect the front of your Ninety or One Ten and augment its distinctive styling. Manufactured to Land Rover Parts unique designs for strength and durability, the nudge bars are encapsulated in a hardwearing dipped nylon coating, and incorporate a plate for mounting auxiliary lights.

RTC8120 – Black steel wraparound nudge bar, with integral lamp slats, Ninety/One Ten, except models with air conditioning

RTC8835 – Black aluminium straight nudge bar, Ninety/One Ten, except models with air conditioning or oil cooler

RTC8835 Nudge Bar

Auxiliary Lighting

Penetrating quartz halogen driving and fog lamps will see you through any conditions on or off road. Rally lamps can be mounted above bumper or to a nudge bar. Rectangular, high efficiency fog lamps are designed for either above or below bumper mounting.

RTC8913 – Rally 2000 fog lamp

RTC8914 – Rally 2000 driving lamp

RTC9521 – Rally 1000 fog lamp

RTC9522 – Rally 1000 driving lamp

RTC9586 – Auxiliary lamp wiring kit, for Rally lamps

RTC8922 – Rectangular, high efficiency fog lamps, pair

RTC8120 Nudge Bar

Hinged Lamp Guards

These uniquely designed front and rear lamp guards protect lenses from flying stones and minor impacts. Horizontal slats, which echo the styling theme of the latest Defender, are manufactured from black nylon coated steel to give strength and longevity. The guards can be opened quickly to make short work of lamp cleaning.

RTC8969 – Front pair, Ninety/One Ten (except models with headlamp power wash) and Series 111

RTC8860 – Rear pair, Ninety/One Ten, with door mounted spare wheel, station wagon type door

RTC8859 – Rear pair, Ninety/One Ten, without door mounted spare wheel, station wagon type door

RTC8976 – Rear pair, Series 111, without door mounted spare wheel

RTC8969 Hinged Lamp Guards

345985 Fixed Lamp Guards
MRC316

RTC8860 Hinged Lamp Guards

Fixed Lamp Guards

Mesh type lamp guards parallel the tough working image of your vehicle. Protection is afforded to both front and rear lenses alike, and the galvanised steel construction helps counteract corrosion.

345985 – Front single, Ninety/One Ten and Series 111

RTC8064 – Rear pair, Ninety/One Ten (except HCPU). Two sets required per vehicle.

MRC316 – Rear single, Series 111

RTC8065 – Rear pair, One Ten HCPU, vehicle set

WATERPROOFS DOG GUARDS GUN/SECURITY BOX LOADSPACE PROTECTORS MATS

Waterproofs

Covers which are truly waterproof are essential items to protect front and rear seats. After use they can be wiped clean and then stored in their carry bag – ready for the next occasion when your vehicle interior needs protection from the elements.

Grey:

RTC8962 – Front outer pair, Ninety/One Ten

RTC8963 – Front set of 3, Ninety/One Ten

RTC8964 – Middle seat set of 3 and rear side bench pair,
One Ten 12 seat station wagon

RTC8971 – Inward facing set of 4, Ninety, UK specification

Beige:

RTC8931 – Front outer pair, Ninety/One Ten

RTC8932 – Front set of 3, Ninety/One Ten

RTC8933 – Middle seat set of 3 and rear side bench pair, One Ten
12 seat station wagon

Stowage clips can be attached to the dog guard. They enable longer pieces of equipment such as ski poles, or up to 4 guns to be carried in their foam padded supports.

RTC8095 – Grey mesh, Ninety Hard Top and Station Wagon,
One Ten Hard Top

RTC8950 – Black mesh, One Ten Station Wagon

RTC8108 – Stowage clips for grey mesh dog guard

RTC8951 – Stowage clips for black mesh dog guard

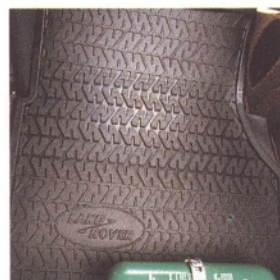

Stowage clips may only be used for the transportation of guns where legislation allows. Please check before using.

Dog Guards and Stowage Clips

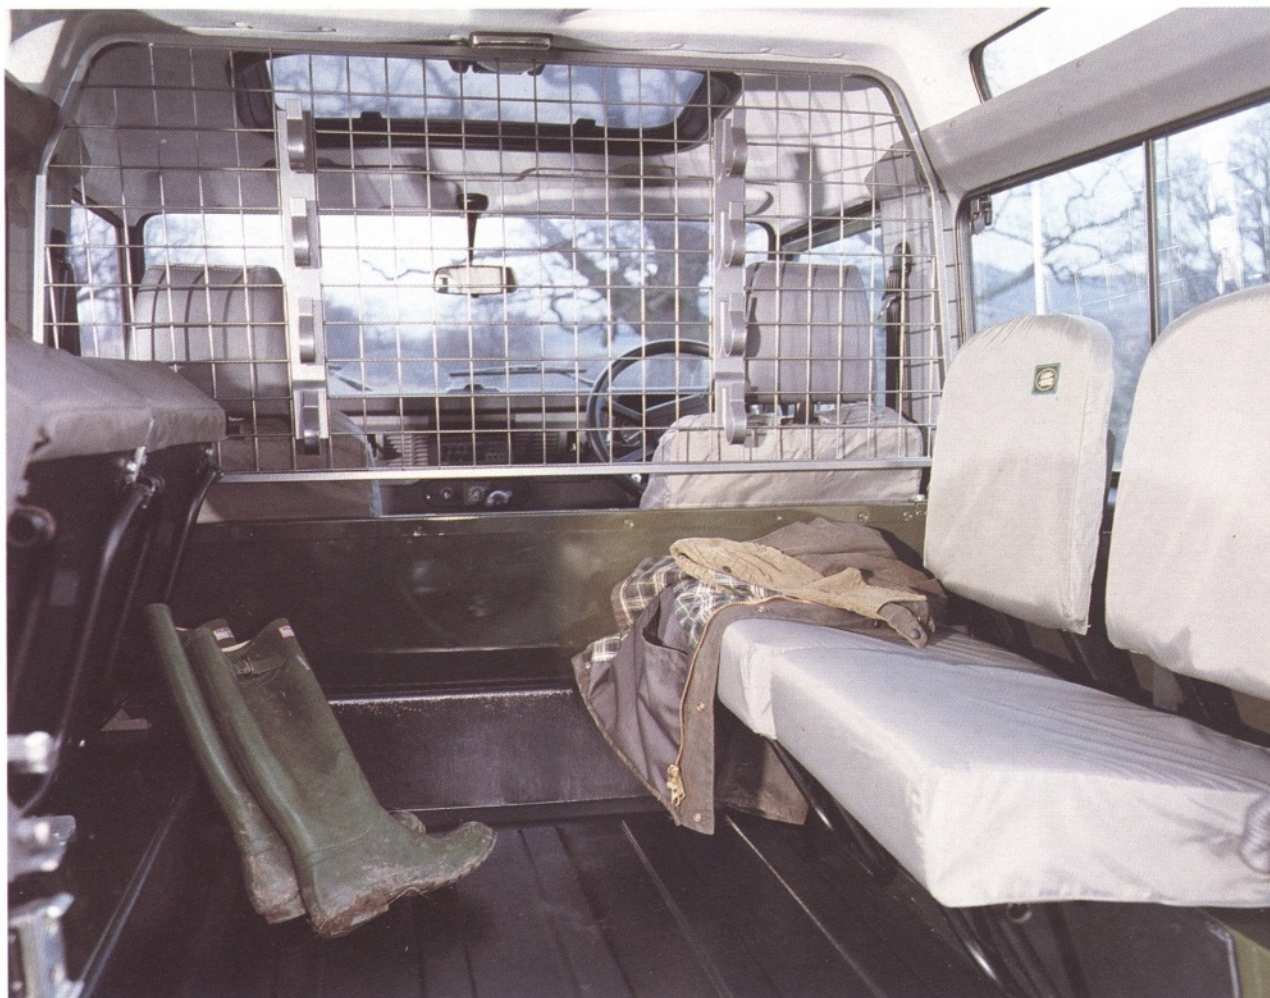

A snug fitting dog guard effectively separates the load area from the passenger compartment, but can be removed easily when necessary. The grey mesh guard looks at home within the Defender interior, being colour keyed in a special gunmetal nylon finish. Fast removal is facilitated by two thumb wheels.

RTC8938 Link Mats

RTC8098 Rubber Mats

RTC8095 Dog Guard
RTC8108 Stowage Clips

RTC8971 Waterproofs
RTC8936 Loadspace Protector

RTC8823 Carpet Mats

RTC8099 Rubber Mats

STC8018 Gun/Security Box

Gun/Security Box

Legislation in many countries now requires the secure transportation of guns in vehicles. The new gun/security box has been designed exclusively for Land Rover. Manufactured from heavy gauge steel with two radial pin tumbler locks, it is located conveniently in the loadspace by a 3mm locking plate and two thumbscrews. These cannot be accessed when the gun box is closed. Inside there is room for two shotguns, with generous foam padding to eliminate damage, even under tough off road conditions. The box can also be used to carry other valuable items when security is of extreme importance. The exterior is coated in a polyester leatherette finish, and a padded leather covered handle gives easy portability. STC8018 – Gun/Security box

Loadspace Protector

A liner made from shatterproof ABS will take just about anything which is thrown at it. Moulded to fit the contours of the loadspace, the liner can be easily removed for cleaning.

RTC8935 – One Ten station wagon

RTC8936 – Ninety

Rubber Mats

Thoughtful design has resulted in these moulded rubber mats; a perimeter wall prevents any spillage of mud or water on to the carpet. The Land Rover signature is included in a rugged tread pattern, and the practical charcoal grey finish tones with interior trim colours.

RTC8098 – Front footwell pair, Ninety/One Ten

RTC8099 – Rear footwell pair, One Ten station wagon

Carpet Mats

A range of carpet mats for front footwells are manufactured from a tough man made fibre. The mats are oil, water, fire, and slip resistant – with a rubber heel pad welded to the carpet for extra durability.

RTC8823 – Front footwell pair, Ninety/One Ten, 4 cylinder

RTC8130 – Front footwell pair, Ninety V8, and One Ten V8 5 speed

Link Mats

Anti-slip link mats are designed for the most arduous working conditions. Produced in durable black plastic, these open pattern mats can promote safety by keeping footwear clean and preventing slippage.

RTC8938 – Front pair, Ninety/One Ten 4 cylinder models

ROOF RACKS WORKLIGHTS TOWING EQUIPMENT

Roof Rack System

A component system roof rack which has been purpose designed for your vehicle. The choice of two lengths, 1600mm and 2400mm covers all Hard Top and Station Wagon models. A ladder rack is also available for transporting long loads. No drilling of the vehicle is required, permitting easy removal of the rack when it is not required. Generating very little wind noise the racks are ideal for on-road and light off-road duties.

RTC8161 – 1600mm roof rack, Ninety and 88 full length, One Ten and 109 3/4 length

RTC8141 – 2400mm roof rack, One Ten and 109 full length

RTC8131 – Ladder rack, single

RTC8849 – Access ladder

Worklights

A rugged lamp with the option of two beam patterns; spot to give concentrated illumination, or flood for wide angle coverage.

RTC8917 – Spot lamp

RTC8921 – Flood lamp

RTC8161 Roof Rack

RTC8131 Ladder Rack (3 shown)

RTC8141 Roof Rack

Towing Equipment

Tow Bars

The superlative towing capabilities of your vehicle can be used most effectively when a genuine tow bar is fitted. The adjustable tow bar allows for various drawbar heights to ensure a correct towing relationship, no tools being needed to make this adjustment. To enable quick changes of towing attachments to be made, a spare slider plate for the adjustable tow bar is available.

RTC8828 – Adjustable tow bar, Ninety/One Ten, except HCPU

RTC9580 – Adjustable tow bar, One Ten high capacity pick up

RTC8831 – Spare slider plate for RTC8828 and RTC9580

RTC7042 – Adjustable tow bar, Series IIA, III

514651 – Fixed tow bar, Series II, IIA, III

Tow Hitches and Hitch Cover

The universal 50mm ball hitch is rated at 3.5 tonnes and is manufactured to EEC standards. A spring loaded, black chromed cover protects clothing from greasy tow balls, and provides that finishing touch to the appearance of your vehicle. The combination ball and jaw unit is the best answer where trailers with different hitches need to be towed.

RTC8891 – 50mm ball hitch

RTC8911 – Black chrome ball hitch cover

RTC8159 – Combination tow ball/jaw unit, 3.5 tonne capacity

90518674 – Tow jaw, 3.5 tonne capacity

535068 – Tow jaw, 5.0 tonne capacity

Tow rope

A strong rope for towing, coupling to vehicles being facilitated by a sturdy hook bound on to each end. Manufactured from buoyant, "safety" red polypropylene, the rope is cleaned easily after use.

Length: 4.57m (15ft)

Diameter: 24.00mm (15/16in)

Safe working load: 1360kg (3000lb)

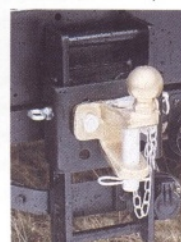

RTC8878 – Tow Rope

RTC8849 Access Ladder

RTC8878 Tow Rope

RTC8159 Combination Tow Ball/Jaw

Towing Electrics

Land Rover towing electrics kits are BSI approved, and are complete with 7 pin socket, cables and fixings. The addition of an S type auxiliary socket kit allows power to be fed into a caravan or trailer for equipment such as a refrigerator or interior lights.

The split charge unit permits the electrical system within your vehicle to charge both the main and auxiliary batteries.

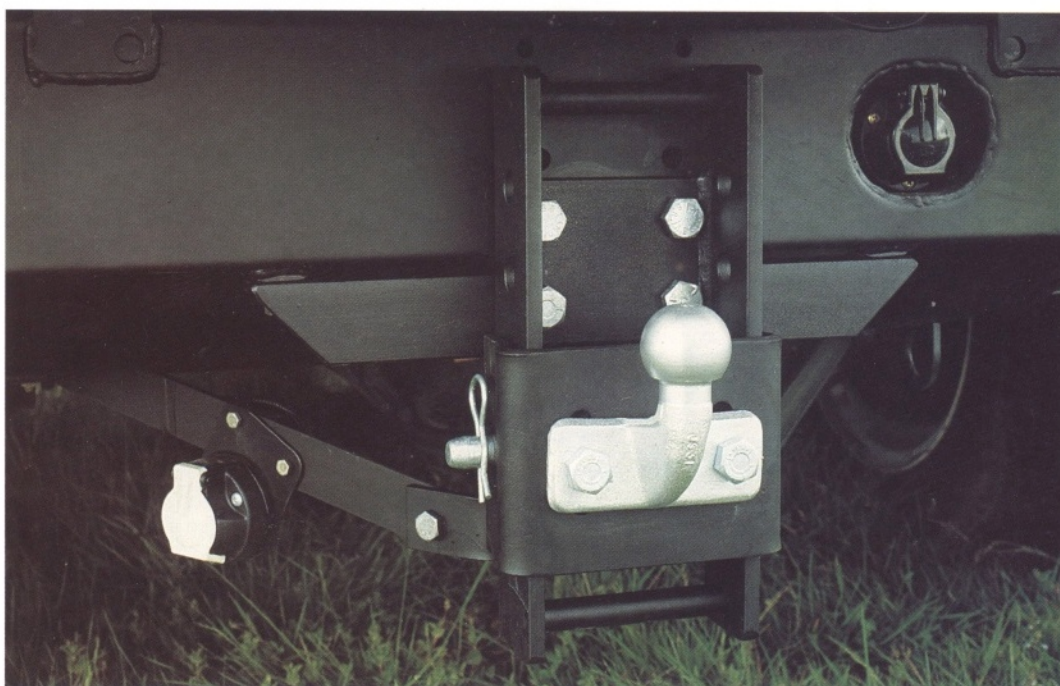

RTC8872 – Towing electrics kit, Ninety/One Ten

RTC8939 – Towing electrics kit, Series IIA, III

607713 – Towing electrics kit, Series III, engine suffix G onwards

RTC8978 – S type auxiliary socket kit

RTC8977 – Split charge unit

RTC8828 Adjustable Tow Bar

WINCHES

Electric Winch

A range of robust electric winches suitable for self-recovery or general winching. The new X6, the Husky and the low profile winch are offered as complete vehicle packages to make specification and installation as straightforward as possible. The fitting kits are designed to give only a minimal reduction to the approach angle of your vehicle.

- Fully reversible power for two way winching
- Remote control with 3.7 metre (12ft) wanderlead
- Fully automatic load actuated braking system
- Sealed for life, water resistant winch gear housing

RTC8137 – Husky electric winch, 3850kg (8500lb) rated capacity, full vehicle kit for Ninety/One Ten includes winch, heavy duty bumper/mounting plate, rope, hook, remote control and all fittings

RTC9588 – X6 electric winch, 2720kg (6000lb) rated capacity, full vehicle kit for Ninety/One Ten includes winch, heavy duty bumper/mounting plate, rope, hook, remote control and all fittings

RTC8965 – Low profile winch, 3630kg (8000lb) rated capacity; full vehicle kit for Ninety/One Ten includes winch, fitting kit, rope, hook, remote control and all fittings

RTC8013 – Highline winch only, 3630 kg (8000lb) rated capacity

RTC8014 – Fitting kit, Highline winch, Series 111 (except V8)

RTC8105 – Fitting kit, Highline winch, Ninety/One Ten (except models with air conditioning)

RTC7028 – Wire rope, 9.5mm (3/8in) × 45.70m (150ft)

RTC7029 – Wire rope, 9.5mm (3/8in) × 30.50m (100ft)

RTC7031 – Rope hook

RTC7032 – Shackle

RTC8013 Highline Winch
RTC8105 Fitting Kit

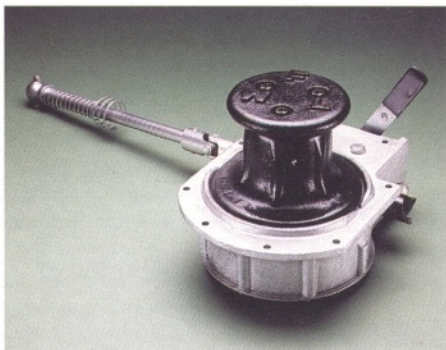

RTC8137 Husky Winch

RTC8888 Mechanical Drum Winch

RTC8965 Low Profile Electric Winch

RTC8874 Capstan Winch

Mechanical Drum Winch

A heavy duty mechanical winch designed for adverse working environments. Driven from the centre power take-off position, the mechanical drum winch is the first choice for fleet users who require a high capacity unit with low maintenance requirements.

- Failsafe, automatic overload protection
- Full 2270kg (5000lb) installed capacity
- Free-spooling clutch for rapid cable payout
- Fully reversible under load
- Built-in roller guides
- Kit includes all driveline components

RTC8888 – Mechanical drum winch, with fitting kit, Ninety/One Ten 4 cylinder models

RTC7028 – Wire rope, 9.5mm (3/8in) × 45.70m (150ft)

RTC7029 – Wire rope, 9.5mm (3/8in) × 30.50m (100ft)

RTC7031 – Rope hook

RTC7032 – Rope shackle

Capstan Winch

The most straightforward winch available for your vehicle, being driven directly from the engine crankshaft. Single line pulls of up to 1800kg (4000lb) are achievable for self-recovery or general winching.

- Direct mechanical drive leaves power take-off point free
- Failsafe overload protection
- Sturdy nudge bar incorporates roller rope guide
- Quickly disconnected for easy fan belt changes
- Line speed of 8.7 metres (28ft) per minute
- 1800kg (4000lb) capacity

RTC8874 – Capstan winch, Ninety/One Ten 4 cylinder models

RTC7030 – Polypropylene rope, with hook, for RTC8874

TELEPHONES

AUDIO

WINCH ACCESSORIES

POWER TAKE-OFFS

Cellular Telephones

The Land Rover cellular telephone allows you to remain in contact; wherever you and your vehicle may be. The telephone incorporates a hands-free facility, a 40 number memory, and ETACs, to make calls as easy as possible. A combination of full Land Rover approval, a two year equipment warranty, with a reputable airtime supplier gives the assurance of an effective cellular installation.

RTC9573 – Cellular telephone, Ninety

RTC9574 – Cellular telephone, One Ten

Digital Stereo Radio/Cassette Player

This digital unit offers 8 presets on the FM waveband, and 4 on each of the medium and long wavebands. The self-seek facility makes for ease of tuning on the move, and additional sophistication is provided by a loudness control to give enhanced bass response at low volume levels. The cassette deck is equipped with a full auto stop capability, and locking fast forward control.

PRC7910 – Digital stereo radio/cassette player

MWC2526 – Mounting bracket, in dash, Ninety/One Ten

Radio Mounting Kit

A purpose designed kit for the installation of a radio or radio/cassette unit to the dashboard underside of all Land Rover models.

RTC8842 – Radio mounting kit

Cellular Telephone Installation

RTC9520 Winch accessory kit

Speaker Kit

Pneumatically mounted cones make for a distortion free speaker performance across the full dynamic range. A comprehensive fitting kit and instructions for door mounting are included.

RTC8843 – Speaker kit

Flexible Aerial

Scuffs and abrasions are shrugged off with this rubberised flexible aerial. For on and off road use the aerial is FM rated for outstanding reception.

RTC8934 – Flexible aerial

Telescopic Aerial

Fully retractable to minimise the risk of damage, this FM rated antenna features an inbuilt water seal for optimum reception and rust free life.

RTC8844 – Telescopic Aerial

Touch-Up Paint

Stone chips and minor abrasions can be covered by use of colour matched touch-up paint. Popular colours are available in both pencil and aerosol versions. Please ask your dealer for the correct paint details for your Land Rover.

Winch Accessory Kit

A canvas stowage bag contains the essential winching accessories of snatch block, strap, gloves and a guide to winching techniques.

RTC9520 – Winch accessory kit

Ground Anchors

A mandatory requirement when hauling objects or recovering other vehicles, the ground anchors are manufactured from heavy duty galvanised steel and eliminate the risk of the winch vehicle sliding.

583590 – Ground anchors, pair

Wire Rope Pulley

A pulley block effectively doubles the line pull of a winch, and can be used when an angled pull is required.

RTC7034 – Pulley block for wire ropes

Towing and Lifting Rings

Provides secure front bumper attachment points for towing and winching ropes. Supplied with a kit of two rings and full fixings enabling simple DIY fitment.

267950 – Towing and lifting rings pair, Series 11, 11A, 111

Centre Power Take-Offs

Create a power source for static or mobile equipment by fitment of a power take-off. This capability is an integral part of the vehicle concept, so you are assured that the Land Rover range of power take-offs has been tried and tested under the most rigorous and demanding conditions worldwide.

- Shaft, belt, or hydraulic drive to generators, compressors, pumps and other ancillary equipment mounted on or under the vehicle
- Simple workshop fit to rear of transfer box

PRC7910 Digital Stereo Radio/Cassette Player

- Rated for continuous operation in 4th gear (1:1 ratio), intermittent operation in the intermediate gears. N.B. Hydraulic unit can be used in forward gears only

RTC8005 – Mechanical, Series 111 (standard gearbox)

FRC5375 – Mechanical, Ninety/One Ten, 4 cylinder models

FRC8541 – Mechanical, Ninety/One Ten, V8 5 speed models

FRC3543 – Mechanical, One Ten, V8 4 speed models

RTC3741 – Hydraulic, Ninety/One Ten, all models

583590 Ground Anchors

RTC8934 Flexible Aerial

ALARMS BABY SEAT TOURING

Alarm System

The installation of an alarm system has become an almost mandatory safeguard against theft and vandalism. This system has been developed specifically for Land Rover; advanced microprocessor and ultrasonic technology was chosen carefully to give maximum protection levels. A comprehensive test programme, whilst checking the reliability and effectiveness of the alarm, also ensured that the electrical integrity of the vehicle has been maintained.

STC8036 – Remote control alarm system, Ninety/One Ten

- Twin siren – 124 dB at one metre
- All indicators flash when the alarm sounds
- Ultrasonics detect motion within the vehicle
- Ignition immobilisation circuit is effective with both petrol and diesel engines
- Safety interlock circuit stops the system being switched on whilst your Land Rover is running

Remote Control Unit

RTC9527 Cockpit Handlamp

Cockpit Handlamp

Ideal for map reading, the halogen bulb of the cockpit handlamp is powered from the cigar lighter socket. A dashboard mounting bracket is included, and permanent magnets built into the back of the lamp body increase its versatility. The cable will extend from 400mm to 3000mm to allow the lamp to be used as a compact worklight.

RTC9527 – Cockpit handlamp

STC8036 Alarm System

Baby Seat

The Land Rover baby seat is suitable for use from birth to approximately 4 years of age. Used rearward facing, babies up to 20lb (9kg) in weight can be held securely on the front passenger seat. Turn the seat round for children between 20 and 40lb (9kg to 18kg) to be accommodated on either front or centre row seats. The seat is restrained using the existing lap and diagonal seat belts, and a pair of special straps are supplied for the One Ten centre rear seat position. The smart pinstripe cover is removable, and machine washable. Approved to BS AU 202, BS 3254 and EEC standards.

RTC9534 – Baby seat, Ninety/One Ten

Fire Extinguishers

A fire extinguisher ensures peace of mind when driving under diverse and extreme environments. These BCF type extinguishers use a Halon gas which is effective against the types of fire likely to be found in a vehicle, and it does not leave a residue after use. Strong diecast canisters are fitted with safety interlocks to prevent accidental discharge.

RTC9537 – 1.0kg.

RTC9536 – 2.0kg.

RTC9534 Baby Seat

RTC9537 Fire Extinguisher

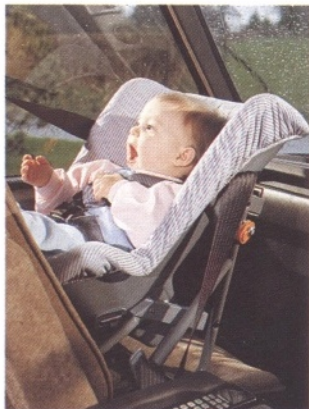

RTC8937 Warning Triangle

Warning Triangle

A mandatory continental requirement, the folding triangle is light in weight, sturdy, and highly reflective by day and night. Folds away into a space saving moulded storage box.

RTC8937 – Warning triangle

ECONOMY SNOWCHAINS GENERAL PROTECTION

Overdrive Unit

More relaxed cruising, and up to 15% saving on fuel can be achieved by the fitment of a Land Rover overdrive unit. Testimony to the value of the 88 and 109" overdrive is the award of the AA Seal of Approval. Supplied as a complete kit for quick fitment, benefits comprise;

- Road speed increased by 27.8% at same engine speed
- Increased fuel economy
- Reduced engine and gearbox wear
- Reduced engine speed for same road speed
- Reduced noise levels when cruising
- Overdrive selection in any gear
- No electrical or hydraulic connections

RTC8020 – Overdrive unit, Series 11, 11A, 111 excluding V8 models Special tubular spanner (Service number 600300) for fitment of the overdrive unit is available via V.L. Churchill authorised agents.

Free Wheeling Hubs

To aid the operating economy of 88 and 109 Land Rovers specify a pair of simple to fit freewheeling hubs. A quick manual operation engages or disengages the front from the drivetrain to give:

- Improved fuel consumption
- Improved acceleration
- Reduced front axle wear
- Supplied in pairs, complete fitting instructions.

RTC8162 – Series 11A 88 and 109, Series 111 88

RTC8163 – Series 111 109

A specially designed service tool for fitment of the freewheeling hubs is available via V.L. Churchill authorised agents.

Spare Wheel Covers

Manufactured from tough vinyl, a spare wheel cover with the Land Rover signature provides the finishing touch to the appearance of the vehicle.

MRC7365 – 7.50 × 16 tyres, old style logo

MTC7993 – 6.00 × 16 and 205 × 16 tyres, old style logo

MXC6407 – 7.50 × 16 tyres, new style logo

MXC6408 – 6.00 × 16 tyres, new style logo

RTC8020 Overdrive Unit

RTC9535 Locking Wheel Nuts

RTC8162 Free Wheeling Hubs

Steps

Ease of entry and exit from your Series 111 is aided by fitting original equipment pattern folding steps.

605934 – Rear door step, Series 111

90606002 – Side step, Series 111

Mud Flaps

Heavy duty moulded rubber mud flaps reduce spray and protect vehicle paintwork. Embossed with the Land Rover symbol – your guarantee of the highest quality.

RTC9479 – Front pair, Ninety/One Ten

320601 – Front pair, Series 111

320590 – Rear pair, Series 111

RTC706 – Rear pair, Series 111

Pedal Pads

These heavy duty protector pads are designed to fit brake, clutch, and accelerator pedals. The deep ribbed pattern and positive fixing helps prevent foot slippage on wet pedal surfaces.

278166 – Clutch and brake pedal set, Series 11, 11A, 111

509463 – Accelerator pedal, Series 11, 11A, 111

Snowchains

Greater control when driving on snow and ice can be achieved when a pair of snowchains is fitted to the front wheels. The Land Rover snowchains incorporate a spring steel bow which snaps into position on the tyre, no assembly being required before fitting. The chains are galvanised to protect against corrosion, with hardened steel links to provide a long service life. Packed in a heavy duty grained vinyl stowage bag, the chains can be stored in the loadspace – always ready for instant and easy fitting.

RTC9589 – Snowchains, pair, 6.00 × 16 and 205 × 16 tyres

RTC9590 – Snowchains, pair, 7.50 × 16 tyres

Gaiter Kit

Supple leather gaiters prolong the life of front axle swivel joints by preventing the ingress of dust and dirt.

276954 – Gaiter kit, Series 111

Locking Hasps

A locking hasp and staple assembly affords protection to the engine compartment, and fuel filler.

332969 – Lock hasp, bonnet, Series 111

504697 – Locking hasp, fuel filler

Cat Guards

Cats and other small animals sometimes find the radiator cowl a snug haven for a rest – with distressing consequences when the engine is started. The cat guard has been designed to prohibit entry into this area without restricting cooling flow.

RTC9472 – Cat guard, Ninety/One Ten 2.5 Turbo Diesel

RTC9473 – Cat guard, Ninety/One Ten 2.5 Petrol and Diesel

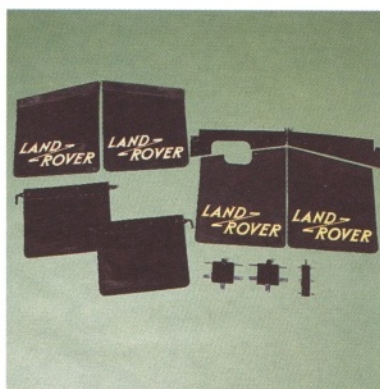

Locking Wheel Nuts

A set of locking wheel nuts can be a good investment when compared with the cost and inconvenience of the theft of wheels and tyres. These wheel nuts adhere to the safety critical standards which are applied to the standard items on the vehicle. Unlike a traditional lock mechanism, the pin drive 'key' system has no delicate parts to give problems in service.

RTC9535 – Set of five

MRC7365 Spare Wheel Cover

Mud Flaps and Pedal Pads

RTC9589 Snowchains

276954 Gaiter Kit

The inside story on Land Rover Reliability

Genuine Land Rover Parts

The power, practicality and ruggedness of your vehicle puts extra demand on its components. They need to be manufactured to the same high standards as the vehicle itself, to be strong and reliable, even in extremes of environment.

Only one organisation can guarantee those standards, because only Land Rover Parts – Land Rover's own parts company has full factory approval to supply the complete range of Genuine Parts for Land Rover vehicles – from the earliest models to the latest Ninety and One Ten models.

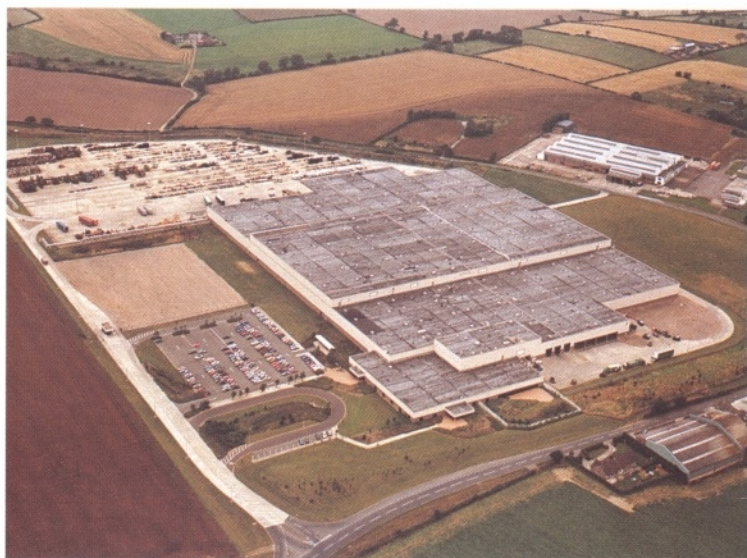

Land Rover Parts Limited keeps its world-wide dealer network supplied with replacement parts – from body panels to shock absorbers, consumables – from anti-freeze to filters and re-manufactured exchange units like engines, gearboxes, alternators and starter motors.

Every Genuine Part (including exchange units) carries a 12 month unlimited mileage warranty from Land Rover.

Your local Land Rover dealer carries a comprehensive stock of Genuine Parts, and each franchised outlet is backed by the world's largest Land Rover parts inventory, all warehoused at our centrally located parts distribution operation at Desford, near Leicester. Dealers by using the Fast Action Computer Terminal (FACT) parts system can give you an instant picture of parts availability and even order parts – all at the press of a button. Indeed in the case of emergencies any of the 30,000 parts lines can be sent overnight on our dedicated fleet of V.O.R. delivery vehicles to arrive at the UK dealer premises by start of business the following day.

Your local dealer doesn't only provide parts, he dispenses expert advice. All of our dealer's parts staff have been trained to know Land Rovers inside out, literally. And they're backed up with the very latest technical information in the form of parts catalogues and microfiche.

It's a parts service with the emphasis on service. Meaning total back-up.

This publication is for international usage and while Land Rover Parts take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvements and therefore reserve the right to alter specifications and equipment without notice.

Certain accessories may not be available for use in some countries because of territorial legislation. Please consult your Land Rover dealer who will be pleased to advise you on current specifications. Dealers are not agents of Land Rover Parts and have absolutely no authority to bind Land Rover Parts Ltd. to any express or implied undertaking or representation.
